Room 3

Trip

Room 3 have returned after the Spring break and are settled back to work and are ready for a very busy 4th term. We have had a slight change in Room 3 and Mrs Couper will now be in on a Monday and Tuesday and Miss Robertson will now be in class the rest of the week

Work

Our topic this term is relating to the Commonwealth Games 2014 in Glasgow. Our role play area has now become a cafe/gift shop. Here the children will be developing skills in using money and writing orders for customers.

As part of the topic they will be learning about the Commonwealth and comparing Scotland to another Commonwealth country.

Our PE times will remain a Thursday (indoor) and a Friday (outdoor) and we will also be practising for Sports day.

There may also be days when we have visiting PE specialists in, so the children may also require PE kits on some different days.

In maths we are busy learning all about addition facts to 20. We are also learning some more about money and continuing to learn about 3D shapes.

Following on from the Science topic 'Weather' last term the children really enjoyed their trip to the Science centre.

Football Festival

As part of the football coaching sessions the children from Room 3 enjoyed taking part in a football festival at the Jock Stein Centre. Here they had the opportunity to further develop the skills they had learned and to play in a variety of teams games with children from other schools.

Kerbcraft

The children in Room 3 have now completed their 12 week Kerbcraft training sessions. This was recognised at a recent assembly within the school and the children really enjoyed this

Water

Hopefully as we enter the summer term and the weather gets warmer, it would be beneficial if the children could bring a small bottle of plain water to school.

Thank you for your continued support from Mrs Couper, Miss Robertson and all the boys and girls in Room 3.
