

Term 4

The final term of your child's education at primary school is finally here - what a quick year it has been I'm sure you'll agree!

The pupils are nervous (as you may be also!) but mostly excited about their transition to secondary and visits and talks will take place later in May and June to help this exciting phase in your child's education!

Look out for forthcoming letters and leaflets.

Interdisciplinary Topic

The children will be working on a topic associated with the Commonwealth Games, where they will learn a little of the history behind the games and research countries which are part of the Commonwealth.

The main focus however will be on healthy eating, where the pupils will examine the food diary of athletes, and compare these to their own daily diets. We will also be investigating food labelling, calories and how much exercise is required to burn calories off!

Room 11 Newsletter Term 4 2014

French

The pupils have worked extremely hard in their languages curriculum this year, the highlight being the completion of our french tv show, '*Glenlee - Ecole de Sport*', which we filmed on an ipad and premiered to Room 12!

The pupils excelled themselves in creating this show and certainly improved their sports and hobbies vocabulary!

Further websites to help support your child's french learning include:-

(online children's french news site)

Events to come:-

The pupils will be preparing for their leavers service which is on Tuesday the 24th June at 1.15-1.30 start. They will be asked to learn songs and scripts (where applicable) at home so please be patient with them!

Their Leaver's party is on Monday June 23rd from 6.30-8.30 pm, where parents are welcome to come from 8.15 onwards to see and collect their child.

The theme of their party is 'Sports' to link in with the Commonwealth Games, and the children are free to wear whichever sporty outfit they would like (no team colours apply as usual.)

The children will also be involved in helping to decorate the hall for their party in the last few days of the term so can bring in materials if they wish to help make them as attractive as possible!

And finally:-

May I just take this opportunity to wish everyone a happy summer when it comes and to say thank you for helping make this year such a great achievement for your child - I have thoroughly enjoyed teaching the pupils this year and wish them every success at High School!
